Resource-Based Business”*

Application for the Rural Business Equipment and Working Capital Loan Fund

Program Description

The Rural Business Equipment and Working Capital Loan Fund has been established by MARBIDCO to help meet the unique financing needs of Maryland’s rural businesses that are not otherwise able to obtain commercial financing for working capital and equipment purchases from traditional commercial lenders (e.g., banks or Farm Credit Associations). This program makes available moderate-cost loans to qualified applicants for working capital and equipment purchases (only). A major aim of this program is to help rural businesses to innovate, diversify, and exploit emerging market opportunities. Another important objective of this program is to complement the financial services of another public sector lending agency by working jointly to fund a food/fiber production or processing project that involves one (or more) Maryland resource-based businesses. (Note: public sector agencies can include: the USDA–Farm Service Agency, a county or regional revolving loan fund, a Small, Minority and Women-Owned Business Account/Video Lottery Terminal fund manager, etc.)

MARBIDCO may finance the activities of agricultural or resource-based businesses located anywhere in the State of Maryland (up to a maximum of \$75,000). It should be noted that MARBIDCO will not provide financing in an amount greater than another participating public lender. MARBIDCO will also take a shared or senior lien position on any collateral security that is pledged to that of another public-sector lender participating in the project financing, so long as MARBIDCO’s security position does not exceed 100% of the loan-to-value. (Moreover, it is possible that MARBIDCO may consent to be in a subordinate lien position to that of a participating commercial lender or Farm Credit Association if the transaction warrants that action.)
